Why American Outdoor Cabinets

At American Outdoor Cabinets, we specialize in crafting custom outdoor cabinets that are built to exceed your expectations. Here's why choosing our cabinets is the best decision for your projects:

100% American Made Cabinetry: We take great pride in being a true American manufacturer. We believe in supporting local industries and using top-notch American materials. That's why our cabinets are crafted using solely American-made High-Density Polyethylene (HDPE), ensuring superior quality and durability.

Superior Construction: Our HDPE cabinets are not only visually appealing but also incredibly strong and durable. With a thickness of 3/4", these cabinets are built to withstand the harshest outdoor conditions. The fully enclosed frameless style cabinet design offers a sleek and modern aesthetic that complements any outdoor setting, while providing ample storage space.

Unmatched Durability: When it comes to outdoor cabinetry, durability is paramount. That's why we use stainless steel fasteners with mortise & tenon construction. This construction technique ensures the highest level of strength and longevity for our cabinets. Additionally, all hardware is Soft-Close Stainless Steel, guaranteeing a smooth and silent operation.

Easy Installation: We understand the importance of a hassle-free installation process. That's why our cabinets come equipped with waterproof leveling legs specifically designed for exterior installation. These legs provide stability and adjustability, allowing you to install the cabinets on various terrains with ease.

Made to Order: We understand that every project is unique, and off-the-shelf solutions may not always meet your specific requirements. That's why every cabinet we produce is made to order. Our skilled craftsmen will bring your vision to life, ensuring that your cabinets fit seamlessly into your outdoor kitchen design.

Standard Features

SOFT CLOSE DRAWERS

Full extension drawers allowing optimal accessibility and storage space, with soft close slides for a smooth and silent close.

FULL DEPTH CABINETS

Full-depth cabinets and adjustable shelving allow you to use the entire space and also provide you with more room for organization.

CONCEALED SOFT CLOSE HINGES

Concealed soft close hinges allow for a clean look as well as quiet and smooth functionality.

EASY TO MAINTAIN HDPE MATERIAL IN A VARIETY OF STYLES AND COLORS

HDPE (high density polyethylene) cabinets are durable, weather-resistant, and so easy to take care of! In comparison to other materials such as wood or PVC, keeping your HDPE cabinets looking new is simple – all you really need is a hose to keep them clean!

MATCHING FINISHES, DOOR, AND DRAWER STYLES MATCHING STYLES

Manufactured on-site with CNC precision, our cabinets and drawers would not be complete without a matching interior and exterior finishes. They will look great both open and closed! We also offer several door styles and we include matching drawers at no extra cost

Cabinets come pre-assembled. High Density Polyethylene (HDPE) Outdoor Cabinets, Stainless Steel Soft Close Hinges and Stainless Steel Soft Close Drawer Guides. Sun safe, Easy to Clean, Stain Resistant, Solid Color. Adjustable Legs. Lifetime Warranty.
